Mayor's Message  
July 15, 2010

Hours of Operation  
Mon – Thurs | 8:00 am - 5:00 pm  
Friday | 8:00 am - noon

Due to bad weather we cancelled our July 3<sup>rd</sup> parade and Farmer's Market, but we still had a great community picnic. The Town Hall Committee provided hot dogs, hamburgers, drinks and the community provided all of the side dishes and desserts. Thanks to Judy Champagne and her group, Mariann Stavinoha, Billie Johnson, Gail Strickland, Delores Nolen, Debbie Weiland, Jeanie and Robert Bergeron. Also, thank you to Johnny Goode and The Corner BBQ for cooking our hamburgers. The hot dogs were cooked by Adame Mitschke and David Myrow. Another thank you to Council Members Johnny Wolfe, Marie Middleton, husband Kent Middleton, John King and wife Jeanne King for helping setting up and cleaning. We had a great time eating good food and visiting with our neighbors.

Also, thank you to council member Delores Peters and her helpers Sonny Pieper, Judy Champagne, Mariann Stavinoha, Jessica Henson, Cody and Ken Miller for putting out the American Flags. They were a beautiful sight to help remind us of the men and women who have made great sacrifices so that we can enjoy living in this wonderful free country.

We are very pleased to welcome Terri White as our new City Secretary/ Treasurer. Terri has 5 years accounting experience along with 7 years administrative. We have combined the two previous part-time positions into one full-time position. We are currently working on collecting over \$2,500.00 of past due water bills.

Our gratitude and appreciation go to two very special ladies who made sure the City of Liverpool ran smoothly until Terri was able to come on board. Pat Grupe and Barbie Hicks did their best to take water payments, posting and sending out statements, pay the city's bills and payroll, also taking care of the council meetings and minutes. They are both dedicated to our community and we cannot thank them enough for their help.

A grant has been approved which a generator that will power the water system in case of a power outage. This will be in place by hurricane season 2011. To insure that our system is covered until the grant is received, we have made arrangements with The Ineos Plant to provide us with large generator if a hurricane is predicted. We are very fortunate to have a plant in our community that is willing to support our city.

The City Council and I are dedicated to making decisions that benefit the community, and we welcome any comments or suggestions.

Sincerely,

Bill Strickland  
Mayor - City of Liverpool
